

West Midlands Emergency Response Equipment (ERN)

The West Midlands Emergency Response Network has supplied equipment to a number of host sites around the region for use by all museums in the event of a small-scale emergency involving collections.

The equipment is available to be loaned from the host organisation to help deal with the emergency.

The equipment at each location consists of

- Wet and dry vacuum cleaner
- Submersible pump with 30 metres of hosing
- 2x RCD units
- Crate of Emergency Equipment

Terms and conditions for borrowing the equipment is available as a PDF to download and further resources to support disaster preparedness and the treatment of objects are available on the Museum Development Midlands website - mdmidlands.org.uk/emergency-risk-and-support
